

YOUR CLOUD MISSION, ACCOMPLISHED

Wherever you are in your cloud journey, you're in the right place. As your go-to for everything Azure, we'll get you set for powerful cloud capabilities by reducing all the challenges into simple steps and advice, so you can be sure of a stellar business outcome every time.

MAINTAIN

Illuminate stellar security

Businesses can't afford to take risks, yet many leave their cloud security in the dark with a poorly configured environment. Our technical consultants take the strain off the process, so you can breathe easy in the knowledge that your environment is properly maintained and protected.

WHAT IS THIS SERVICE?

We assure that your Azure is secure, uncovering hidden areas of risk and pinpointing where cost savings can be made. Equipped with industry-leading tools, you'll have the power to regain control and make critical business decisions at speed.

HERE'S HOW:

- **Our deep dive workshop:** we'll take the time to understand your pain points and concerns so we can focus on how to resolve them and ensure that your workloads are aligned with the Well Architected Framework.
- **Banish the risks with award-winning tools:** equipped with powerful tools, our experienced technical consultants evaluate key areas of your environment to unearth areas of improvement.
- **Feel weightless:** we'll offer detailed recommendations to remedy your challenges, with clear actions to take it all in your stride. You'll emerge with the breathing space to get on with what you do best, accelerating your path to success while igniting cost savings.

WHY SOFTCAT?

At Softcat, we work closely with you to take your Azure to the next level. Cutting through the complexity of the cloud, we put your business and your people's unique needs first to find a solution that'll really power transformative effects. Our experience, expertise and longstanding relationships with key partners means you'll constantly be able to seize new technologies and stay ahead of the curve.
