

Security Consulting Services

Digital Forensics and Incident Response Global Services

Incident Response Retainer and Readiness Services

Our DFIR Team provides incident response capabilities globally through a retainer and readiness services.

In today's complex threat landscape, no one is immune from cyberattacks and data breaches, and organizations increasingly understand that planning for security incidents is an essential element in their business strategy. Today, your response efforts to an incident has a direct bearing on reputation, share price, and business success. While incidents are increasing in frequency, businesses are spending more time and money on remediation.

By developing a programmatic and methodical approach to incident handling, organizations are in a better position to protect their environment in today's fluid threat landscape and maximize operational efficiency and effectiveness.

Our DFIR Services assists organizations in ensuring they are ready to respond to an incident with our Readiness Services:

- Incident Response Plan Gap Analysis Assessment
- Incident Response Plan Development
- Incident Response Plan Testing
- Incident Response Runbooks
- DFIR Knowledge Transfer
- Compromise Assessment

Incident response planning is one of the most effective ways to **reduce an incident's impact and timeline.**

Should an incident occur, DFIR Retainers and Emergency Response Services enable our clients to have a world class team working for them immediately.

Client benefits

Service level	Client benefits
Readiness Services	Assessment of current incident response plan and procedures to evaluate preparedness level. Test and practice mock incidents to help reduce response time.
Retainer and Emergency Response	Highly skilled DFIR responders available 24x7x365 for client needs. Immediate response to incidents. Brand protection.

How we deliver

Our Global DFIR Team have consultants in regional locations around the world, enabling us to offer full 'follow the sun' incident response capabilities to our clients during a major incident. We scope the incident, identify end goals, along with rules of engagement and follow a standardized methodology for a swift resolution. We can deploy onsite or remotely as needed. All incidents are handled in a forensically-sound manner and all cases are treated as if they will proceed before a court of law. The Global DFIR Team are members of FIRST and have obtained [CREST](#) accreditation in cybersecurity incident response services.
