1. What is qRCodeMe?

qRCodeMe is a qR Code Generator API versatile and constructed upon powerful cloud infrastructure.

Target Audience

This API is meant for IT developers which are making apps to recognize input plain text and encode it in many types of qRCodes available. Useful in product labeling, e-commerce, production, transportation etc.

2. Which Are The Benefits?

Automated Process

All processes are automated. You just have to follow the required rules for getting a high accuracy qRCode.

Easy to Integrate in your APPS

We have multiple sample source codes presented on our website written in different programming languages which will help any developer to easy integrate the API in the APP(s).

Chat Support 24 x 7

If you have questions or need some help, we are glad to quick answer you and offer the best we got.

You Own Commercial Copyright

Yes, you may call our API in your APPs and feel free to sell your applications without any extra fee than our pricing packages.

3. How To Use It?
