

**The Collective**

Guiding you into the future

# Modern Meetings, Events & Meeting Rooms

---

# Challenges

**More online meetings than ever, how productive are they?**

## Challenges for Meetings & Users

- **Inclusive meetings where everyone gets the same experience**
- **Work like you are in one place**
- **Easy to use and intuitive Meeting solution**
- **It just works and is always ready**
- **Excellent Audio & Video quality**

## Common Issues

How many time have you heard : "Can you hear me", "Can you see me", "Can you see my screen"?

People are not heard because bad positioning or not enough microphones in the meeting room.

People cannot be seen because the Camera is not suited to show everyone in the room.

The screen cannot be shown both in the meeting and on the TV Monitor

# Solution

**Working together in the office, remote or in a meeting room with modern capabilities with the best quality.**

Meeting needs have changed, employees are more mobile, and remote collaboration has increased rapidly.

Inclusive meetings bring together meeting rooms and employees with same features and experience regardless of location, device or workspace

## Solution Delivers

- **Modern and secure meeting experience**
- **Enables hybrid workspaces & meetings in the office and remote,**
- **Transforms workspaces of all sizes into capable Meeting rooms and Meeting Spaces**
- **The best devices for every location, workspace and room**
- **End to End solution for meetings & meeting rooms, Easy, secure and managed solution**
- **Scale meetings from small to large number of attendees**

# Solution

**Working together in the office, remote or in a meeting room with modern capabilities with the best quality.**

Meeting needs have changed, employees are more mobile, and remote collaboration has increased rapidly.
