# Conditional Access Workshop

How are you going to deploy Conditional Access policies without upsetting your users?

Too much security compromises the user experience, too little security compromises the entire business.

Mobile Mentor can help you to achieve the right balance between security and user experience with our Conditional Access Workshop.

Conditional Access Workshop provides the following outcomes

✓ Objective assessment of your security and employee experience

✓ Technical design for conditional access policies and controls

✓ Confidence to get started with a zero-trust architecure

How it Works

1 Step One
Assessment

2 Step Two
Design

3 Step Three
Knowledge Transfer

" **From a security perspective we are in a much better place... and the COVID-19 situation really accelerated our journey from a proof-of-concept to full production.**

Bob Hillhouse
CISO - University of Tennessee
