

Optimize project value from the palm of your hand wherever you go.

END-TO-END PROJECT MANAGEMENT USING AZURE CLOUD

At Sierra Digital, we're pioneering apps that enhance core ERP capabilities in the Azure Cloud. Apps like the all-new OhZoneRPM. Now, your enterprise can optimize project cost, quality, and outcomes. From any device. Anywhere.

What customers think...

"As Project and Portfolio Management professionals, we need to rethink how we drive enterprise value in changing times. Two ways we've done it are by driving remote capability, and by deploying applications like OhZone that intelligently enhance core ERP functions."

— Susan Stone, Assistant Director ERP-SAP
City of Houston

Remote, Automated Project Management using SAP Cloud Platform on Azure (SCP)

Leveraging the power of Automation with Azure Cloud convenience, everyone in your Project Management Organization can overcome long-standing barriers to project success:

Key Application Features

- Gain real-time, always-on Azure Cloud access to projects from anywhere to remediate issues, optimize project value, and take risk-mitigating action.
- See new opportunities to enhance project outcomes, shrink costs, and improve CSAT.
- Select Executive, Finance, Operations, and Resource views to facilitate instant drill-down.
- Integrate X Data—including Survey Data—to generate new insights in relation to Ops Data using embedded analytics.
- Quickly build custom dashboards to reference Strategy, Prioritization, and Gap Analyses.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
