

Teams Control

Get control over you company's teams and teams creation with Teams Control.

Teams Control is your new governance tool, enabling your business to manage the growth and creation of new teams. Teams Control let you create different Teams templates based on your needs. With teams templates you can automate the approval and creation for the requested Teams.

Awaiting my approval

A screenshot of a "New request" form. At the top, it says "Awaiting my approval" and "Status Title ↑". The form has a "Select a template" dropdown menu with "Standard team" selected. Below that are input fields for "Displayname", "Description", "Owners", and "Members". At the bottom are "Cancel" and "Submit" buttons.

Keep your company's Teams structured, secured, and compliant.

With the automated approval you will prevent your Microsoft Teams from filling up with duplicates and unnecessary Teams. The automated approval also secures you, that only the approved users gets access to confidential Teams.

Get started with your Teams governance!

Visit www.teamscontrol.com for more information and demos or go directly to Apps in the Teams application.

Infoworker is a Microsoft gold partner with focus on efficient collaboration using Microsoft as platform.

Overview

The users are given an overview of all the different teams and groups they are a part of, making it easier for them to find what they are looking for.

Easy request

Custom the request application so it is easier for the users to create a new Team within your company's guidelines.

Approval

Make an automatized approval process by defining the users with approval for a set of templates.

Configure and delegate

Create and custom the application so that the requested Team will follow defined rules, classifications and guidelines.

Onboarding & offboarding

Add and remove users from multiple Teams at once.

Control

Get better control of the lifeline of the Teams, from the request to the archiving. See updated status, information and important actions.
