Data Modernization Data Platform MVP

HeroPath "DATA LAKE" ACCELERATOR

HeroPath | PHASE 1

HeroPath Accelerator Objective:

1

HeroPath Data Platform MVP is based on state-of-the-art cloud services to illustrate the overall vision.

2

Establish an end-to-end flow including **ingestion**, **processing** to **normalize using Azure Databricks** and validate data, and visualization. 3

Securely store newly modelled data within Synapse Data Warehouse and Show advanced visualization capabilities available out of the box on Power BI.

Proposed Architecture

The proposed **Hero**Path architecture for this project is based on the Microsoft Azure platform. Our aim is to set up and manage a lightweight and elastic platform that can ingest up to 3 data sources, persist it in raw format, process and curate the ingested data, surface the data, and create a data visualization driven by the surfaced data.

Milestone	Delivery Date
Project Kickoff- Data Discovery	Week 1
Platform Setup	Weeks 1-2
Ingestion, Processing & Modelling	Weeks 3-4
Reporting, Deploy and Knowledge Transfer	Weeks 5-6
Estimated Cost	\$49,500

Lixar will provision all of the required services to demonstrate the functionality of a working data pipeline.

WHY Hero Path?

Key Benefits of HeroPath:

- Lower the costs of creating and maintaining a secure data engineering pipeline at scale
- Accelerate innovation and increase business agility with AI-driven success
- Gain insights faster with reliable, high-volume ingestion of hybrid data
- Accelerate model training by enabling data scientists to quickly **discover the right datasets**
- **Increase productivity** and do more with existing resources by leveraging the right partners and tools

HeroPath DEPLOYMENTS

Industries with deployed HeroPath data pipeline:

- Manufacturing
- **Financial Services**
- Public Sector
- Sports and Entertainment
- Telco

Lixar Fuelled by BDO

Lixar is a **Premier AI and Data company** in Canada that helps clients discover how AI and Data can be leveraged to provide actionable, data-driven outcomes. The company is built on over **20 years of enterprise-scale experience** developing connected software solutions:

DATA, AI-ANALYTICS & CLOUD

- Data Science & Al
- Cloud Platform as a Service
- Edge Computing
- Engineering / Architecture
- Advisory / Strategy

SOFTWARE DEVELOPMENT

- Mobile / Web Front & Back End
- User Experience (UX / UI)
- Connected Products / Platforms
- Legacy System Transformation
- SDK /API Development
