TECHNOLOGIES

**WHO IS MIA?** MIA is a transformation agent that acts as a team of digital services to transform the way you do business in terms of optimisation, modernisation, and cost saving.

Modernising business processes

Identifying opportunities

Optimising technology landscapes

## 4SIGHT MIA

MIA runs a continuous, and automated process on the IT landscape:

Understands and assesses the technology landscape and broader business

Identifies opportunities for improvements

Makes recommendations for improvements

Packages the recommendations to management to make informed decisions

## CUSTOMER CHALLENGES

- Spending too much money on the company's IT landscape – e.g. Licences & assessments
- Considering new business models but not knowing how to adapt.
- Running a cluster of technology environments.
- Experiencing a shortage of time – takes teams of people weeks to finish their work.
- Dealing with Human Error.
- Not having visibility for your Executives – no landscape view of environments.
- Owning old, legacy/redundant technology, resulting in a lack of knowledge about new opportunities.
- Struggling with scaling.
- Managing disparate landscapes.
- Identifying risks in their current IT landscapes.
- Incorrectly adopting and using technology.
- Not being able to monitor the performance of the current landscape.
- Inaccurately reporting or using data incorrectly.
- Bad decision-making influences time to market.

## 4SIGHT MIA SOLUTION

4mia integrates into modern and legacy technologies. She uses subject matter experts with many years of experience as CIO's, CISO's, CTO's, Enterprise Architects etc. and packages their expertise as modules - that can easily and quickly be executed on a variety of customers, at speed. The solution can be tailored to utilise local learnings as well as company specific learnings, while still bringing in best practice.

### 4mia Values:

- Is applicable to any ICT environment or service
- Provides a speedy and easy deployment
- Is highly Scalable
- Offers ROI for any organisation
- Promises cost savings
- Represents future proof monitoring, reporting and assessment technology
- Delivers automated and continuous benefit to our clients - 24/7/365

## BENEFITS

Users will be able to get advice, roadmaps and plans that will allow them to reduce their cost and risk. They will also receive insights that will help them prioritise their scarce funds and resources to obtain the largest possible contribution.

- Optimised view of the landscape
- Modernisation opportunities of the landscape
- Cost saving opportunities of the landscape
- Prioritised and actionable list of recommendations that results in optimisation, moderation and cost saving.
- Receive a Packaged Report that incorporates best practice, for presentation to management.

A team of digital services that are always available. The more expertise, the better.

# CONTACT US:

Incorporated in 2017, 4Sight is a JSE AltX (ticker: 4SI) listed, multi-national, diversified technology group. Our purpose is to leverage our extensive product and services portfolio, focused on 4IR technologies, people and data-focused solutions to design, develop, deploy and grow solutions for our partners (customers and vendors).

The company's mission is to empower our partners to future proof their businesses through digital transformation to make better and more informed decisions in the modern digital economy.

4Sight's business model enables its partners to take advantage of products and solutions within its group of companies, which will allow them to enjoy turnkey digital transformation solutions across industry verticals.
