

MyCreditRobo

MyCreditRobo - An automated tool giving you extra psychometric data to make a better-informed credit decision so you can safely & responsibly accept more applicants.

MyCreditRobo gives you quick and easy access to psychographic credit scores. Now, affordable for all lenders providing credit to consumers as well as SME's.

Frictionless implementation

Our online interview very simply integrates into your site, offering your customers a seamless user-experience. With our easy to use tools you can customise the look and feel to match your brand.

Increase acceptance

MyCreditRobo processes your online interview responses and generates psychographic credit profiles which enrich the applicants overall credit score. This gives you richer insights and safely helps you to increase acceptance rates.

Access all your data, all of the time

With your MyCreditRobo dashboard you can check your customers' scores and review their psychographic credit profiles wherever you are at any time. Watch in realtime as your applicants progress through the funnel, check out key metrics, and download your data as a CSV for further analysis.
