

Problem Solvers for Enterprise Technology

OSTUSA.COM

Thinking Ahead. Seeing Beyond. Building Together.

We work alongside organizations to help accelerate their progress toward a digital future. Clients such as Herman Miller, Mall of America, Stryker, Hennepin Healthcare, and Caterpillar have worked with OST on projects such as:

STRATEGY & INSIGHTS

Defining where you're headed and how you can leverage your data.

DIGITAL EXPERIENCE

Creating compelling experiences with mobile applications, data visualization, and more.

CONNECTED PRODUCTS

Designing, building, and managing smart, connected products and the infrastructure to support them.

HYBRID IT

Discovering and implementing the best solution for your data: on-prem, in the cloud, or both.

MANAGED SERVICES

Helping you overcome challenges related to technology, devices, help desk, special projects, and the infrastructure you use every day.

We help companies bridge the distance between insights, technology and strategy in smart, meaningful ways that yield transformative results.

Who We Are.

Every company has a personality. Ours is open and approachable with infectious positive energy. We're humble but confident. Smart—but able to laugh at ourselves when we deserve it. We're creative collaborators who value innovative thinking and open communication in every project.

When people hear us talk about OST, we want them to simply get that we love our jobs—and the people we work with. Because we do. And with more than two decades of success behind us, we have the experience to help companies do what they do best, even better.

What guides us?

Simple.

Honor

Honor our people and their families first, clients second, and the rest will fall into place.

Delight

Delight our clients with every touchpoint.

Serve

Serve our teams and clients with humility.

Embrace

Embrace innovation and entrepreneurship.

Learn

Learn through curiosity and empathy.
