# TrnDigital Microsoft 365 Assessment for Health Organizations

TrnDigital helps health organizations assess their Microsoft 365 health innovation and cost savings opportunity. We educate health customers on the value and capabilities of Microsoft 365, and provide an overview of a typical path to migration & adoption. Our flexible engagement model enables us to support organizations of any size - from startup to enterprise - with predictability and rigor.

## BUSINESS OUTCOMES

- › **Empower health teams to be more productive** – Assess the opportunity to drive cost efficiencies by consolidating & decommissioning outdated collaboration and file-sharing solutions.
- › **Accelerate health collaboration and innovation** – Provide an overview of typical path to deploy Microsoft 365 and unify employees on one secure cloud platform.
- › **Protect health information** – Assess needs for Microsoft security & compliance capabilities so that employees can be creative and work together securely.

## Microsoft 365 for Health ASSESSMENT AGENDA

In this assessment, TrnDigital will partner with health customers to **identify the value and cost savings opportunity adopting Microsoft 365 services for health collaboration**, define specific high value usage scenarios, understand legacy technology landscape to be retired, & create a high-level scope for migration and adoption.

Build the business case	Use Case Development	Scope
<ul style="list-style-type: none"><li>• Educate customers on M365 capabilities and help them envision future state.</li><li>• Uncover cost-savings opportunity retiring outdated technologies.</li><li>• Provide an overview of a typical migration, adoption, and management lifecycle.</li></ul>	<ul style="list-style-type: none"><li>• Assess core needs for teamwork, file sharing, internal portals (Microsoft Teams, SharePoint Online, OneDrive, etc.)</li><li>• Assess high level use case inputs for user identity, access, and authentication strategy.</li><li>• Identify needs for governance &amp; compliance.</li></ul>	<ul style="list-style-type: none"><li>• Deliver high level plan for Microsoft 365 subscription &amp; tenant configuration.</li><li>• Deliver high level plan for migration of existing data, sites, etc.</li><li>• Capture requirements for special case handling.</li><li>• Identify internal project leadership community.</li></ul>

# Our Microsoft 365 Assessment to Adoption Approach

Our approach is iterative and embraces agility, involves people at all levels in fostering alignment and adoption, minimizing business impact and risk.

## Approach Highlights

1. Focus on the importance of leadership alignment
2. Activate effective sustainable change networks throughout the organization
3. Foster and encourage continuous communication and engagement
4. Implement learning and education as ongoing versus a one and done event
5. Measure success across the readiness and adoption lifecycle
