Know-what and know-how

This is what you ask for, but above all it is our way of being: **combining skills with everyday practice.**

emm&mme INFORMATICA
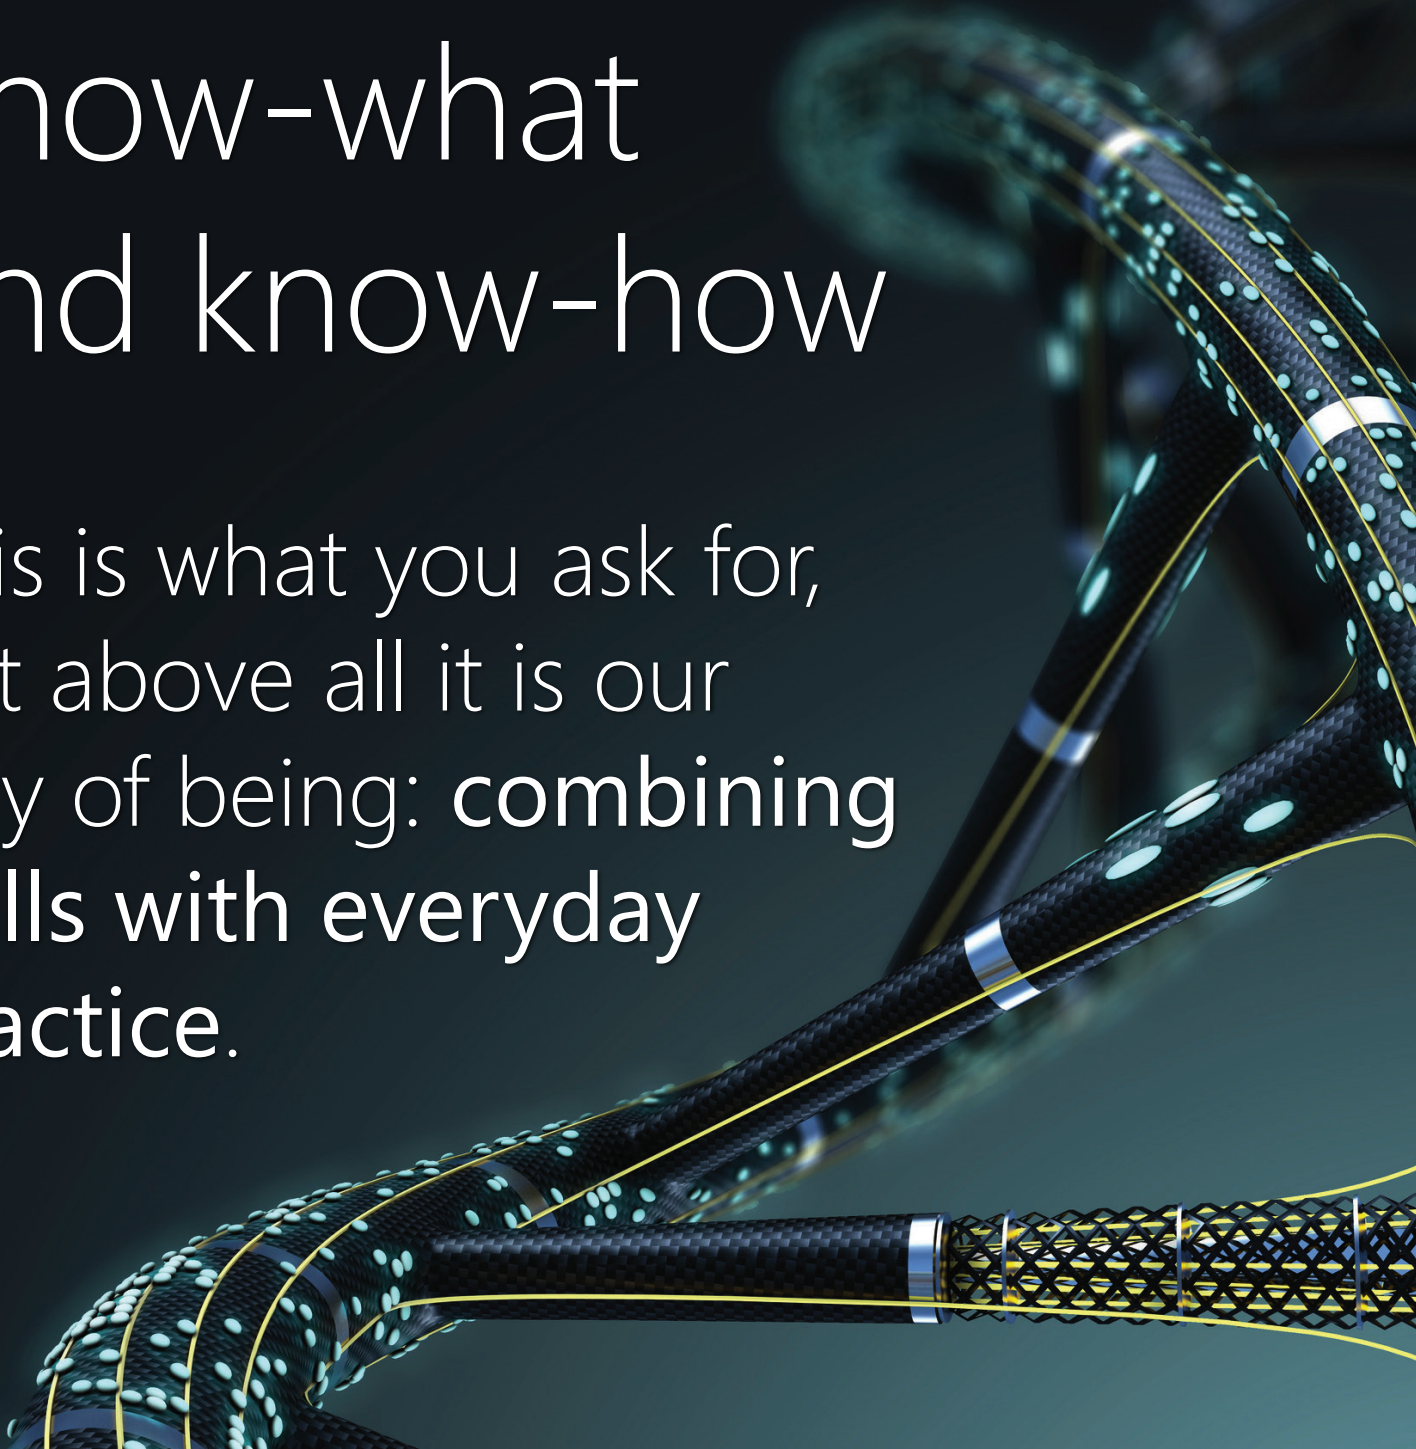

Established in 1994 we have always operated in ICT services.

Infrastructure

We are system integrators and support you in managing the business infrastructure On Premises or Cloud or Hybrid platforms.

We are experts in Microsoft, Oracle, Linux, and VMware technologies and solutions.

Software development

We develop software according to your needs. We work in already structured teams or manage the entire outsourcing contract.

Based on the complexity of the project, we choose the most suitable methodology: agile or traditional.

Training

With more than 105,000 hours of training, we transfer technological knowledge to IT professionals and end users.

We integrate our training offer with eLearning solutions.

Heart and mind for sustainable solutions
