Barcode Scanning

Microsoft Dynamics 365
Business Central

intelligent
systems

Overview

Barcode Scanning application optimizes the inventory handling by automating the sales and purchase processes. The extension is designed to work with USB connected barcodes scanners and is natively integrated within Microsoft Dynamics 365 Business Central. By using the app, you are adding barcode scanning functionality directly to your sales, purchase, and transfer orders in Dynamics 365 Business Central.

Barcode Scanning extension increases data entry accuracy, boosts productivity, and levels up in-house business operations.

Utilizing barcodes helps to reduce human error, improve data collection, validation and management, and eliminate manual tasks, ultimately lowering costs and making your company more profitable and efficient.

Benefits

Barcode Scanning

- Single-click adding lines and items quantity counting in sales, purchase and transfer orders
- Eliminates shipping delays due to inaccuracy
