Microsoft Purview Compliance Manager

What Compliance Manager brings

Simple, automated templates to help guide long-term compliance management and snapshot reports.

Granular self-assessment reports to quickly verify control implementation & testing evidence.

Share credit on overlapping controls across templates, reducing your compliance team's re-work in individual assessments.

Why Cyclotron for compliance?

Cyclotron uses a Solution Deployment Framework developed in conjunction with Microsoft compliance specialists. We deploy with an accelerated, proven, two-phased approach. And we bring deep enterprise expertise with compliance teams across many verticals.
