

Media Finance for Business Central Assessment

Overview

An assessment will consist of meeting(s) with key members of the finance team to review the current state of systems and process and desired future state and goals. VetaTek will analyze this information and provide a proposal to include a high-level fit analysis, value proposition, preliminary budget, and timeline.

Agenda

Day 1 – Conduct meetings with key members of finance team

Day 2 – Deliver proposal

Why?

An initial assessment provides an opportunity for organizations to learn about VetaTek's experience working with the finance teams of other Media Agencies and the potential benefits they can gain from implementing Business Central combined with our experience and intellectual property we have developed. We understand the unique requirements and integrations necessary to streamline the coordination of details managed in media planning and buying systems like Mediaocean, Strata or Advantage and the finance system.

About Us

VetaTek implements and supports Microsoft Dynamics and Office 365 solutions for small and medium-sized companies. VetaTek has strong knowledge in implementing Business Central for finance teams at media agencies.
