

SERVICES

Migration Strategy In A Day

Amazing new employee experiences and capabilities exist in Microsoft 365, but for many they are hampered because data, content and work is fragmented across other legacy or cloud systems. Let a team of MVPs and experts help you get to a better M365 cloud faster.

Estimated Duration:

REACH OUT TO US AT HELLO@2TOLEAD.COM

The screenshot displays the SharePoint admin center interface for Box migration. It features two migration options: Option 1 (Batch 1, 2, 3 followed by Cutover) and Option 2 (Batch 1, Cutover 1, Batch 2, Cutover 2, Batch 3, Cutover 3). The overview section shows a volume of 100.32 GB and 17,231 files and folders. It includes several charts: 'Source paths by migration readiness' (Ready, Warnings, Errors), 'Source paths by volume' (Under 1 GB, 1-20 GB, 20-100 GB, 100-500 GB, 500 GB-1 TB, More than 1 TB), and 'Source paths by files and folders count' (Under 10, 10-1K, 1K-5K, 5K-20K, More than 50K). A 'Files and folders needing attention' section lists 'Empty folders' (6K/17K) and 'Path length is too long' (2K/17K). A priority bar at the bottom identifies 'Intranet spaces', 'Team spaces', and 'Personal spaces' for prioritization.

SERVICES

Migration Strategy In A Day

WHAT WILL WE DO?

Explore the organizations current state and identify opportunities for migration that improve organization outcomes and maximize Microsoft 365 benefits.

Provide strategic guidance on priority, complexity, and the value of migrations from legacy or cloud systems into Microsoft 365.

Educate on 1st party (Microsoft), community and 3rd party tooling and resources that can accelerate or support a migration assessment, execution or the optimization effort that follows.

Expert led working session(s) to plan the high-level migration considerations for up to two targeted high value migration workloads.

Share summarized recommendations to accelerate migration next steps.

Customized implementation plans are available for purchase.
