

Public Cloud Cost Containment & Analytics

Uncover cloud usage trends and get recommendations to reduce costs, eliminate waste, and ensure smart usage.

Without proper controls and utilization, it's easy for cloud resources to sprawl and costs to rise. With visibility, analytics into your cloud usage, and continual evaluation and recommendations from TierPoint public cloud engineers, you can identify opportunities to reduce your cloud expenses by as much as 30%.

Consolidated view to track what is driving your costs in the public cloud

Easy-to-use dashboards and sharable reports with total visibility into your cloud usage

Actionable recommendations for cost savings based on past usage metrics

Reservation best practices with regular evaluation of unused resources, mismatches, right-sizing and rebalancing

Efficiently allocate cloud costs and resources to appropriate business units

Eliminate cloud waste by identifying mis-provisioned resources

Customizable alerts and automated daily reports when expenses cross your self-defined thresholds

View key trends driving cloud consumption across your entire organization

Easy 3-Step Process

1. FREE Cost Analysis

Complimentary scan to uncover potential savings

2. Cost Containment

We will work with you to implement the changes

3. Sustain Your Costs

Ongoing management through regular reviews as part of our Professional Bundle
