

Secure Blink

**Heuristic
Application Security
Management Platform**

PROPOSAL

Secure Blink

 **PROBLEM****01**

Unable to monitor their application security Posture due to lack of effective application security monitoring tool.

02

Businesses Revenue losses due to the cyberattacks caused by the application vulnerability that go undetected.

03

Challenges in identifying the application security issues due to the absence of automated SaaS-based application security tools.

04

Difficulty in remediating the application security vulnerability due to lack of automated remediation.

A Heuristic Application Security Management Platform that proactively addresses the known & unknown vulnerabilities associated with business applications.

Vulnerability Management
