Intelligent Microsoft Azure® Content Management System for SAP®

ABOUT AL-ACS:

Use Microsoft Azure® for SAP® ArchiveLink ECM plus leverage Azure to optimize your document processing workstreams and extend SAP content centric processes to Azure, Power App/Teams and O365 users.

WHAT WE OFFER

Leverage Microsoft Content Storage of YOUR Choice
• Directly connect your SAP to Azure Storage, either SharePoint On-Line and/or Azure Blob Storage
• Configuration based implementation in a matter of hours
• Provides for a business ROI measured in just months

Content Enable Any or All SAP Processes
• Finance, A/P & A/R, Purchasing, Sales, HCM, Asset Management, Customer-Vendor-Material Masters, QM, Delivery Management, Projects, Vendor Invoices, Plant Maintenance, etc.
• For both inside-SAP users and O365/Azure users, business documents are one click away and process cycles shortened

Go beyond just ECM – Automate Content Processes
• Ready to Use API Services for Apps and Users external to SAP
• Advanced Search for both SAP and O365 users
• Teams, O365 & Power Apps. ACS API services work with Power BI, Virtual Agents, Automate, AI and robotic process automations.

Run a 100% Cloud SAP
• ALL Azure SAP ERP & ECM
• Any Cloud SAP linked to Azure ECM
• Move SAP Hana Content to Azure
• Replace Legacy On-Prem ECM with Azure Cloud ECM for SAP

WHAT OUR CUSTOMERS ARE SAYING

"We saved over 30,000 person hours in a year by content enabling the handling of sales contracts in SAP; everything needed through the contracting process was a single click away and we used process optimizations to shorten our contract cycles. Yes, we are running our business even better!"
– Associate Director,
*IT Productivity - Collaboration Services, NTT Data*

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

System of Engagement

System of Record

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
