Improving Patient Care  
[www.absoluteemr.com](http://www.absoluteemr.com)

## Absolute

Absolute EMR is a cloud based platform that helps physicians manage their clinic efficiently by empowering them with quick and easy access to their patient medical charts, patient appointments and confirmations, patient documents and test results, patient prescriptions, consult notes and treatment plans, and much more.

## Absolute

Manage your clinic or hospital anywhere at any time from your phone, computer or tablet and access everything from multiple locations. Manage patients' demographics and medical information while benefiting from the ability to add your own custom fields and widgets.

## Absolute

Absolute EMR was meticulously designed and developed with the help of medical specialists. The result is a truly comprehensive healthcare platform that efficiently assists physicians in their daily tasks and improves patient care. Absolute EMR brings the latest technologies and innovations to clinics.
