

# Azure MIGRATION

The vehicle to your cloud roadmap destination.

## Service Brief

Ascend Azure Migration is a full lift-and-shift engagement to design and execute your desired cloud blueprint. We work with you initially to capture business objectives and create success criteria. We then work with you around project milestones, execution, testing, and validation, providing you with a complete Azure production environment.

Azure Migration can be provided with Azure licensing resources upon request.

Project deliverables are based around a core deployment aligned to [Cloud Adoption Framework](#).

## Engagement FRAMEWORK

**Discovery:** ATG data capture and scoping with customer teams to build an agreed-upon framework.

- Interviews with your teams.
- Access to environment for buildout.

**Execution:** ATG-led engagement, phased migrations with responsible parties.

- Pre-configuration validated by application groups and vendors as needed.
- Migration & testing of pilot workloads using dummy VM's .
- Weekly lift-and-shift for production application groups.

**Validation:** Testing & sign-off.

- Each application group will undergo same testing process immediately following migration.
- Review of finished production environment, validation against project milestones.

## Who is Ascend?

Ascend Technologies Group is proud to be part of the top 1% of MS partners worldwide who have achieved Microsoft Gold status. As a Gold Partner, Ascend provides the highest quality Microsoft services, backed by milestones for elite performance and select customer care.

Ascend is also a Microsoft Cloud Service Provider, providing customers access to better economies on Azure and Modern Workplace (M365) licensing. ATG is a single partner for all of your enterprise Microsoft needs.
