Multi-Cloud Threat Check Assessment

Expert Microsoft Technology Services

Value proposition

The Multi-Cloud Threat Check Assessment is an engagement allowing you to gain insights on active threats and vulnerabilities related to your Azure or multi-cloud workloads using Microsoft Defender for Cloud and other Azure security capabilities.

Workloads

- Microsoft Defender for Cloud
- Microsoft Sentinel
- Azure Firewall, Firewall Manager, & WAF
- Azure DDoS Protection
- Azure, AWS, and/or GCP

Engagement Outcomes

- Assessment risk report deliverable
- High-level roadmap to remediate permission risk across all major cloud platforms
- 17 hours of customer-facing time required over 3 weeks

Assessment offers

- *Microsoft funding for Invoke-led Assessment may be available upon request*
- **Invoke-led trial licensing for qualified customers*

Timeline & Scope – Customer customizable (**minimal customer effort**)

Week 1
