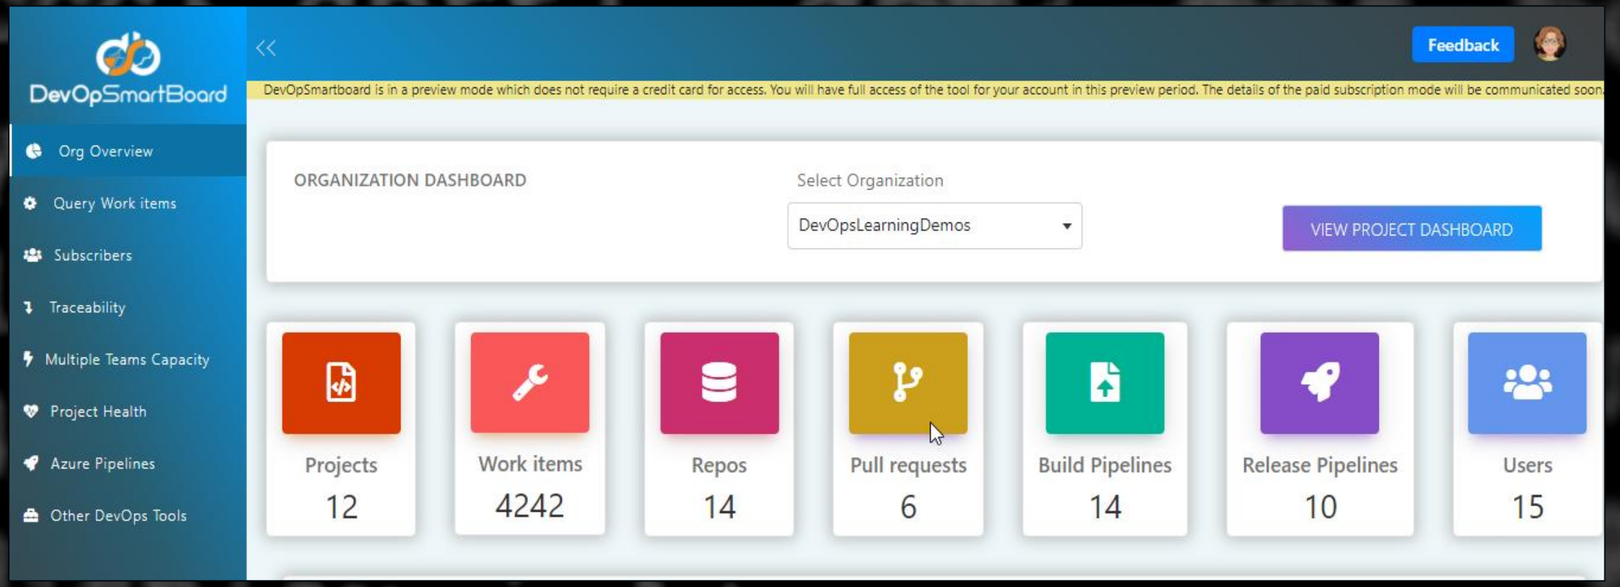
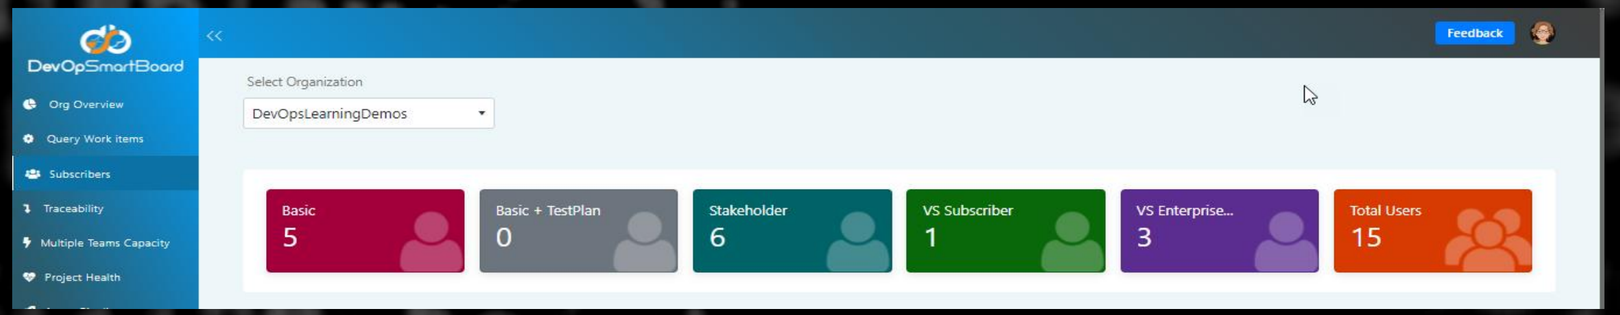
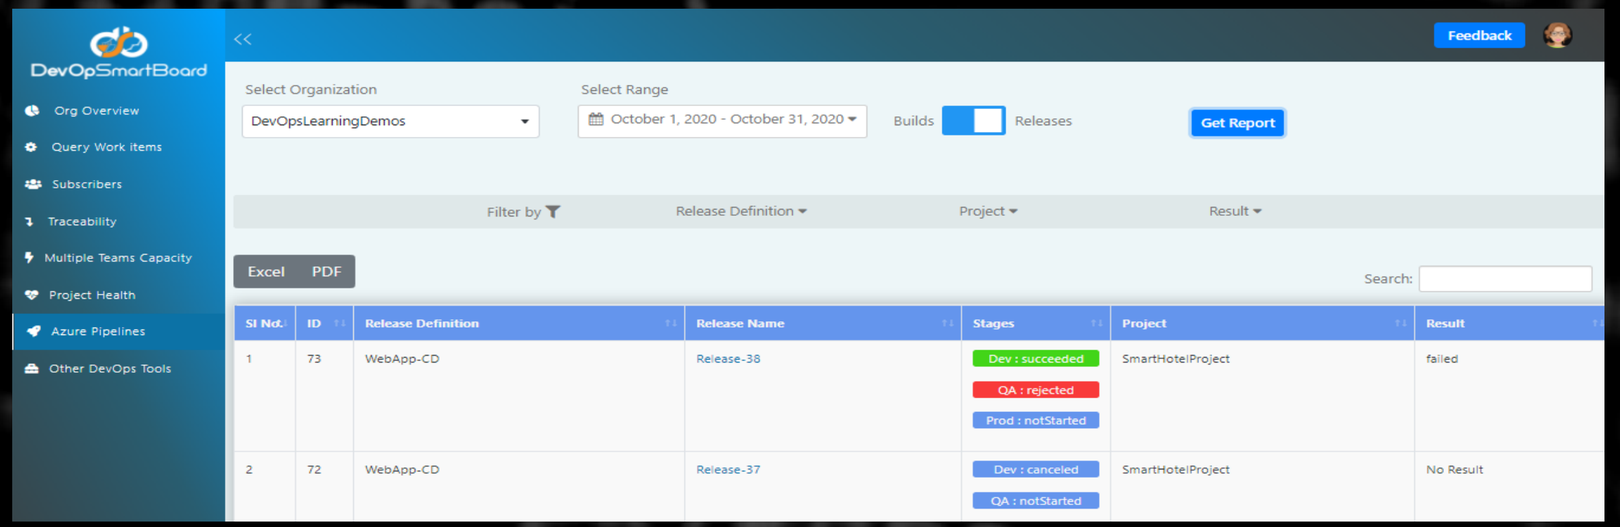
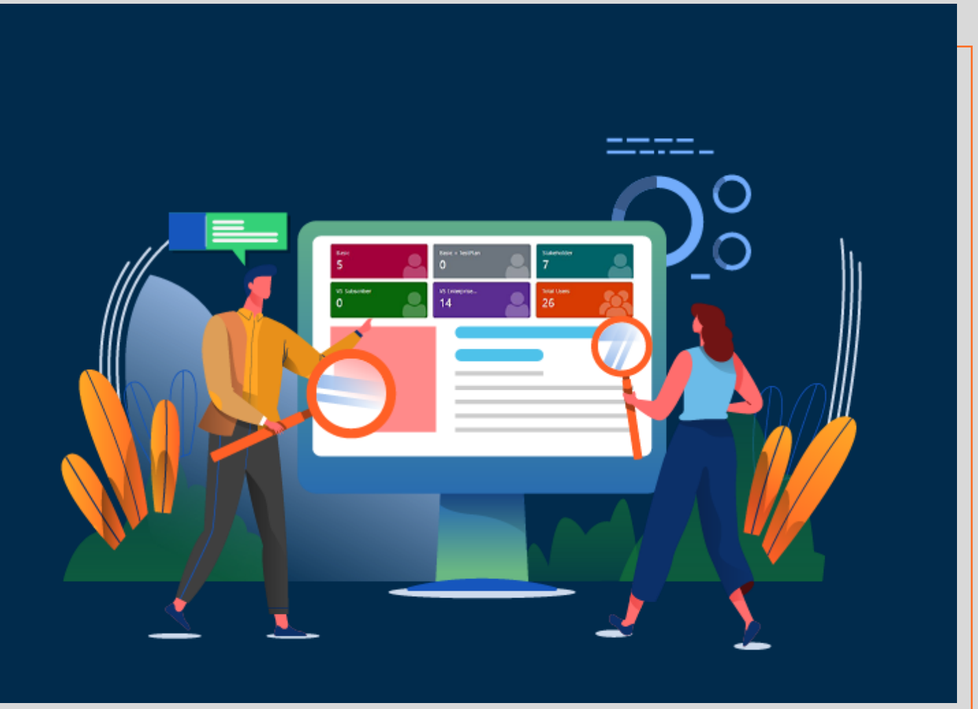
DevOpSmartBoard: The ultimate end-to-end and one stop Dashboard solution for all the reporting needs in Azure DevOps

https://www.devopsmartboard.com/









DevOpSmartBoard

Ultimate end-to-end and one stop Dashboard for Azure DevOps. DevOpSmartBoard generates key metrics at the Azure DevOps organization and Project level

1

Improve organizational efficiency by optimizing resource utilization

Check individual capacities and assign resources efficiently to ensure optimal utilization across teams and projects.

2

Effortlessly access key DevOps metrics within the organization

A single intuitive dashboard which provides a bird's eye view of all projects, bugs, work items, repos and pipelines across the entire organization.

3

Integrates seamlessly with existing Azure DevOps organization

A hassle-free onboarding experience. Sign in with an existing Azure DevOps organization account to view key metrics across various levels.

DevOpSmartBoard (DSB) is the Ultimate End-To-End and One Stop Dashboard solution for all the Azure DevOps reporting needs at organization and project level.

- ❑ DevOps Organization and project level metrics
- ❑ Query work items with various combination of filters and export to excel
- ❑ Subscriber Information
- ❑ Traceability from Epic to granular level Tasks
- ❑ User Capacity across Teams & Projects
- ❑ Project Health
- ❑ Reports on Azure Pipelines at organization levels
- ❑ My Activity Reports
- ❑ Report on Azure Pipelines
