“Microsoft Cloud can be very easy – if you do it right”

The problem with the cloud speed

Today: My tenant is configured properly and 100% according best-practices!

Tomorrow: We have updates for you!

Day 2: We have updates for you!

Day 3: We have updates for you!

Day 4: We have updates for you!

Day 5: We have updates for you!

Day n: We have updates for you!

Some time later: my tenant is missing important configuration!

state-of-the-art

It would be great, if....

... my tenant would always be state-of-the-art

... I would receive regular recommendations, how to keep my tenant state-of-the-art

... there would be a recurring report, that shows my progress in staying state-of-the-art

Salvation is near!
