# MICROSOFT AZURE MONITOR AND LOG ANALYTICS

## GET FULL VISIBILITY INTO YOUR APPLICATIONS AND INFRASTRUCTURE

No matter if you are using the cloud or have servers on-premises, management and monitoring of critical applications are imperative to ensure availability and performance. Microsoft Azure Monitor and Log Analytics is the single dashboard with all the information needed to show current status, logging of security data, backup and recovery, and automation of common steps. Monitor and Log Analytics contains these features to help manage any mix of on-premises or cloud:

- Log Analytics
- Application Monitoring
- Security and Audit
- Capacity Planning
- AD and SQL Server Assessment
- Configuration Changes
- Malware Assessment
- Patch Management

## WHAT CAN CDW DO FOR ME?

CDW's Microsoft Azure Monitor and Log Analytics offering will help you successfully deploy a complete solution which includes:

- Plan and design a Microsoft Azure Monitor and Log Analytics solution to integrate with an on-premises System Center Operations Manager, or Azure.

- Gather business and technical requirements to ensure a successful project

- Determine deployment roadmap of Cloud Management features based on requirements

- Installation and configuration of Monitor and Log Analytics

- Configuration of Log Analytics to integrate with an existing Operations Manager installation

- Deploy Agents to Servers and collect logs on Azure

- Knowledge transfer on proper administration and configuration of components

- Configuration of Dashboards, Security roles and Solution Packs

## THE BENEFITS

- Consolidation of logging information and monitoring

- Customization of alerting to meet business needs

- Knowledge transfer on best practices to deploy and administer Log Analytics

- Utilize features to maximize the benefits of Log Analytics

- Accelerate or improve monitoring and management of Azure and on-premises workloads

## WHY CDW?

CDW is uniquely qualified to design IT solutions that remove complexity and unnecessary costs from your organization. Our experts become part of your team, providing the support you need, when and where you need it.

We can help you navigate Microsoft's robust array of solution offerings. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid cloud environments. Based on your business demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer best-of-breed providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.

We get Microsoft. And we can share our extensive knowledge with you, so your organization can spend less time managing software and more time putting it to work.
