

VISTAS invites you to a free 1-hour assessment of your business needs, discuss and understand your business objectives, existing processes, pain points, and technical-functional requirements.

Is the intelligent Dynamics 365 Business Central application a good fit for your company? Let VISTAS perform an assessment of your business needs.

### Únderstand

- the nature of your business: goals, mission, vision, values, future growth plan, and strategies
- the high-level requirements of your business

### Discover

Discover your existing processes, products, services, and tools

- Financial reporting
- Inventory reporting
- Purchasing, receiving, invoicing receipt, and payment
- Sales quotes, orders, fulfillment, invoicing, and cash receipts
- Manufacturing: assembly BOM and production BOM
- Jobs with time and expense entry, project billing, and scheduling

# Perform

Perform root cause analysis to identify any pain points and recommend possible solutions.

#### Recognize

Recognize your integration needs with your current operational systems.

# Evaluate

Evaluate existing data for migration.

# Discuss

Discuss implementation roadmap.

- Plan the components needed for Dynamics 365 Business Central implementation including any third-party apps.
- Proposal with estimated implementation costs for licensing, setup and configuration, training and reporting, integration, data migration, milestones, pricing, a 5-year cost outlay and Dynamics 365 Business Central extensions.
- Go- Live Plan and After Go-Live Support
