

**GLOBAL  
HORTICULTURE  
COMPANY  
MIGRATES TO SAP  
ON AZURE**

A large global horticulture company communicated their vision to enable its business to become a data-driven organization and modernize their IT infrastructure. To accomplish this, they needed to transition from SAP on-prem to SAP S/4HANA on Azure. Valorem Reply came in and helped the horticulture company implement a full modern data enterprise ecosystem capable of delivering an adaptive and resilient platform, which enables reporting, analytics, and data science. Migrating to Azure allowed this organization to save costs and have full control over their data and reporting.
