

Accelerate to Cloud

Leverage HPE expertise with cloud transformation

The HPE Cloud Cost Audit leverages our cloud economics experience generated through hundreds of successful enterprise cloud transformation engagements

What is HPE Cloud Cost Audit?

The Cloud Cost Audit service provides a portfolio-level analysis of cloud service utilization for clients with a current IT footprint in the cloud. The service assesses Cloud Service Provider (CSP) billing data and 3rd party cost/utilization reports to identify actions that can reduce costs and immediately help improve cloud resource management. The service includes providing cost control best practices for effectively running the cloud.

Why customers use HPE Cloud Cost Audit

The 4 - 6 week engagement can provide the client with a plan for:

- Cost reduction opportunities and strategies specific to client's situation
- Strategies to better evaluate spending
- Governance/policy recommendations to limit overprovisioning
- Reporting opportunities to better evaluate cloud spending

Take the Right Steps

- Determining the right workloads for cloud and what to do with them
- Governance and compliance in the cloud
- Managing cloud costs

Transform Quickly

- Develop a Cloud Strategy
- Organizational impact of cloud
- Cloud Economics
- Cloud Operations

Technical Insights & Strategy

- Security Workshop
- Big Data Workshop
- IoT Workshop
- Digital Transformation Workshop & others

Leverage HPE Experience

Understand Best Practices

Deep-dive on Technology

"We initially engaged HPE with a workshop that helped us understand implementation and operations in the cloud, how we'd benefit from Azure as our cloud platform, and what our best next steps should be moving forward."

- Leading credit-card processing company

HPE Cloud Cost Audit leverages our cloud economics expertise & Microsoft Azure capabilities

Workshops

- Strategy and Economics
