Explore recommendations and next steps

Learn about GDPR compliance and your way to becoming GDPR compliant, quickly and as cost-effectively as possible with Move, certified as Microsoft Gold Partner.

Topics we will present and examine:

- Presentation about the basic of the new GDPR regulation
- Learn the requirements of how to be GDPR compliant
- What is Microsoft Compliance Manager?
- Presentation of selected controllers in the GDPR template
- Presentation of processing activities that is performed in Office 365 (dependent on the organization having an updated protocol of processing activities ref. GDPR article 30).
- Evaluation of selected controllers, an overview of processing activities, risk evaluation, and security policies.

GDPR Compliant Microsoft Solutions and Services:

- Office 365
- Azure
- Enterprise Mobility and Security
- Azure SQL Database
- Windows 10
- Windows Server

As your business-critical data expands, having an integrated approach to compliance is more important than ever.

By attending this workshop, our experts will work with you to:

Document your compliance objectives and strategy

Show how to understand, prioritize, and mitigate potential compliance risks

Demonstrate ways to accelerate your compliance journey with the latest Microsoft technology

Provide actionable next steps based on your needs and objectives
