# Evisort automates end-to-end contract management to accelerate the business

AI Driven Contract Management

Evisort is a contract management solution that applies advanced AI to streamline contract creation and to extract, classify, and track key provisions in all contracts across the organization, all delivered through an Azure cloud-based platform. Evisort increases visibility, reduces risk, and improves efficiency throughout the contract lifecycle with automated contract creation, approval workflows and continuous contract management and monitoring.
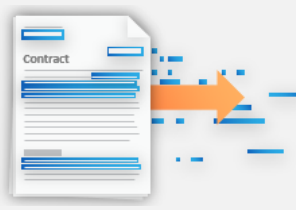

WHAT WE OFFER

Streamlined contract creation
Evisort assures new contracts are on a Legal-approved template with key provisions and terms to streamline the review and approval process. Gain visibility and accountability with a single platform to collaborate, communicate, review, and approve contracts.
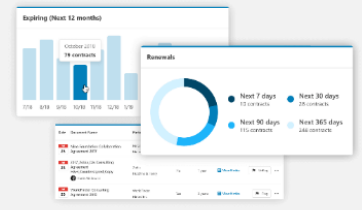

Centralized contract data across different systems
Contracts touch every part of an organization, and are typically stored across various ERP systems, storage services, and email inboxes. Evisort integrates with existing systems to provide a centralized data repository from contracts across the organization.

Automatic extraction of key contract data
Evisort is the only platform that automatically aggregates contracts from across the business and applies proprietary AI to identify over 230 contract types and over 50 key clauses, dates, and meta data from any contract, including 3rd party, for accurate analysis and action.

Deep insights and analysis
Applying advanced AI, Evisort provides real-time analysis of contracts from across the organization to identify expiration dates, key clauses, and terms for compliance and renegotiations. Evisort provides deep insights and analysis of all your contracts to minimize legal and financial risks.

WHAT OUR CUSTOMERS ARE SAYING

"Evisort saved us time and enabled us to respond faster to our business partners. We now have Evisort continuously monitor our contracts to ensure compliance and minimize risks. The implementation was seamless as we were able to be up and running in 10 days."

– Nancy Krystal, Associate General Counsel, Jelly Belly

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

BE FUTURE-READY

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

BUILD ON YOUR TERMS

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

OPERATE HYBRID SEAMLESSLY

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90% of enterprises globally.

TRUST YOUR CLOUD

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cyber security experts, security is foundational for Azure.
