Contracts are typically stored in data silos across the organization

Lack of:

- Visibility
- Accountability
- Compliance

Resulting in:

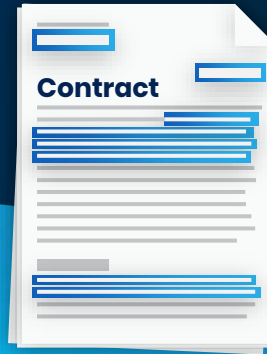

- Missed Vendor Renewals
- Missing Agreements
- Mismanaged Contracts
- Mismanaged Funds

Evisort unifies and analyzes contracts across the enterprise with AI

Centralizes data
across different systems

Automatically extracts key
data from contracts

Deep, contextual insights available
across org

230+
50+

Document Types
**Provisions, Clauses
& Metadata**

Comprehensive AI-driven contract management

Evisort is the only end-to-end service that automatically aggregates contracts, creates streamlined workflows, and applies advanced AI to deliver real-time analysis so that your legal, contract, and procurement teams can accelerate the business.

Save Money

Evisort reminds you of key areas of revenue spend, such as when it is time to renegotiate or cancel renewals.

Gain Insights

We integrate with all of your systems and work with over 230 contract types, including third party, so you can search information no matter the contract.

Mitigate Risk

Run reports to auto-identify key clauses, provisions, or expiration dates that create potential risks or unwanted costs.

Improve Efficiency

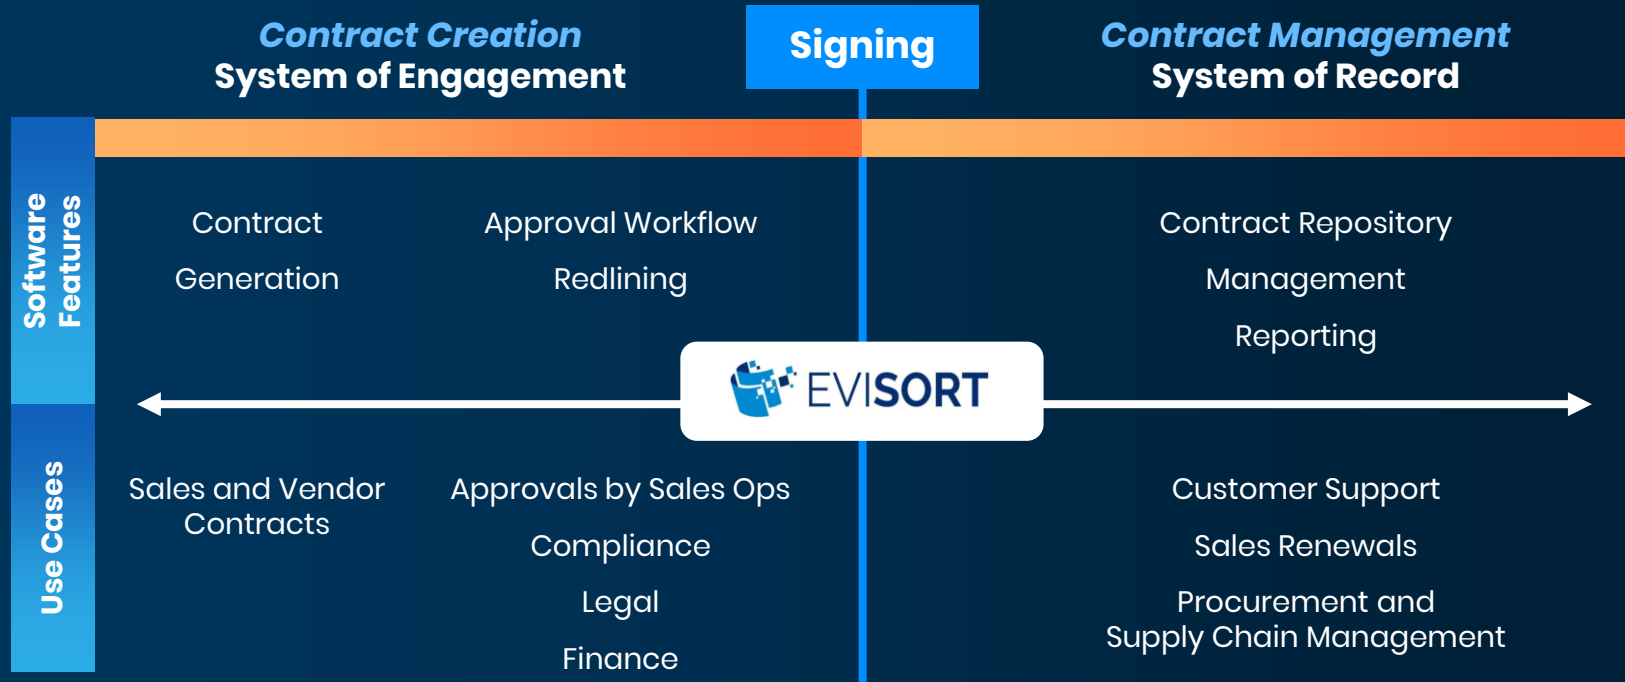

Keep all your legal personnel and delegated tasks in-house. Evisort does the work of paralegals and creates bandwidth for your internal team's productivity.

Keep Your Info Safe

We are certified for SOC 2 Type II with an in-house security team and outside monitoring to provide double coverage. Your data is encrypted in transit and at rest.

Accelerates contract creation and manages all signed contracts to reduce risks

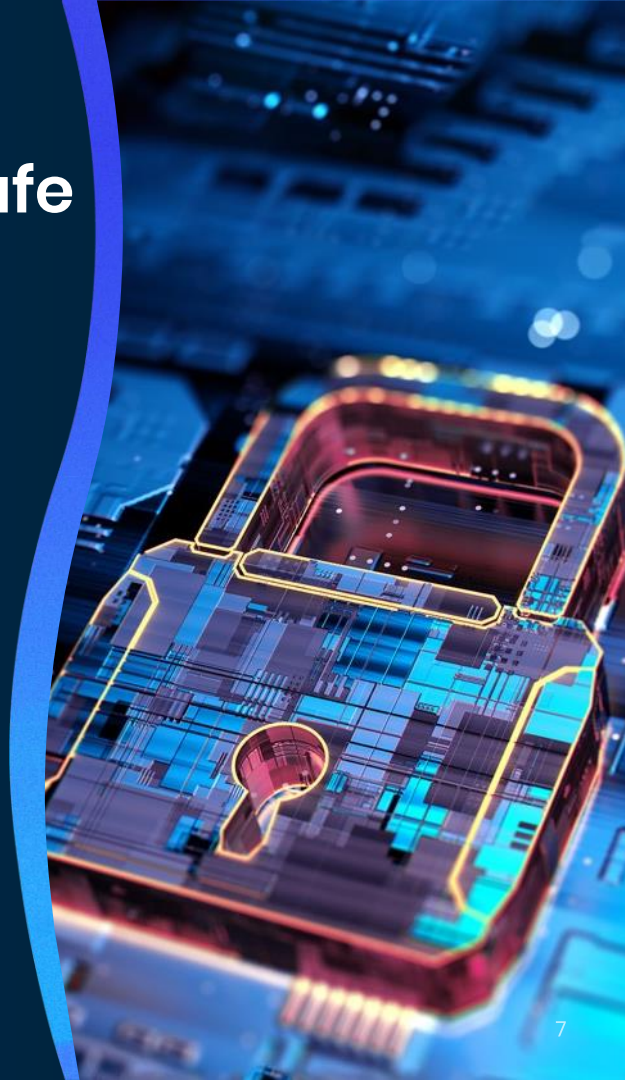

Evisort utilizes the latest security measures to keep your information safe

Internal measures:

- Dedicated security team
- WW bug-bounty program
- Encryption at rest and transit (AES256)
- SSO (Okta/Azure AD/SAML)
- Cloudflare endpoint protection

External validation:

- 3rd Party testing
- Pen tested twice a year
- SOC 2 type II certified by independent CPA firm

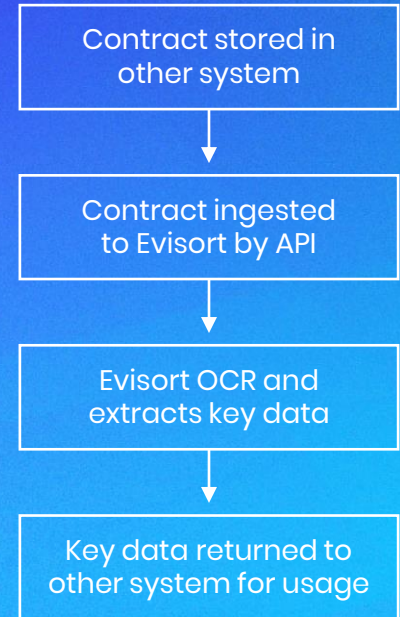

Evisort works with your existing systems for rapid implementation

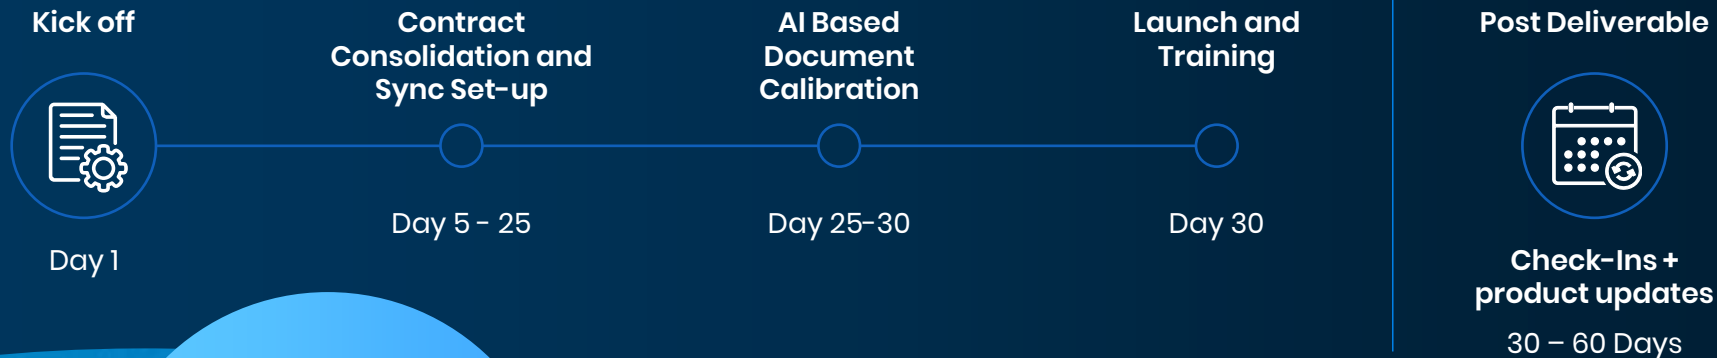

+ Many other systems and integrations

Rest API Custom Integration Example

A typical implementation is less than 4 weeks

Our world-class technology and team deliver a fast process

✓ 4 Weeks or less

✓ Leverage existing contract repositories

✓ White glove support

THE TEAM

Client IT

Client Contract Manager

+ Evisort Implementation team

Jelly Belly improves efficiency and response time

Implementation completed in 10 days

Client Overview

Leading candy company making over 100 confections

"Evisort saved us time and enabled us to respond faster to our business partners. We now have Evisort continuously monitor our contracts to ensure compliance and minimize risks."

– Nancy Krystal,
Associate General Counsel

Before Evisort:

Key Metadata Tracked

Only 6 or so datapoints, all manual

Key Clauses Tracked

None, lawyers relied on memory and notes

Challenges

Hard to find things, missing deadlines, staff spent time doing tedious data entry

Main Impacted Department

Legal was unable to respond swiftly to business questions

After Evisort:

Key Metadata Tracked

Over 20 including Key Dates, Party Names, and Payment Terms – Automatically

Key Clauses Tracked

Change of Control, Indemnity, LOLs, Termination and more – Automatically

Fast ROI

Members of the team who spent hours entering data manual are freed up for higher level work.

Lower response times to business partners.

Brooks Brothers manages business risks

Procurement team adapts to unforeseen events

Client Overview

The oldest men's clothier in the United States

"Evisort made our response to COVID-19 a million times easier"

– Brooks Brothers Employee

Before Evisort:

Contracts Stored

Silos for different departments with lots of duplicates and gaps in data

Key Information Tracked

Procurement needs to track auto-renewing vendor contracts

Challenges

Procurement did not have full view of vendor contracts and risks therein

Main Impacted Department

Procurement is unable to ensure vendor compliance & deadlines

After Evisort:

Contracts Stored

Data silos sync into Evisort without disrupting day to day processes in depts

Key Information Tracked

Payment Terms, Contract Value, Renewal Notice Dates, Lease Extensions

Key ROI

Alerts of auto-renewing vendor agreements.

Procurement team was able to quickly react to a pandemic by tracking Force Majeure and lease extensions automatically.
