

# SUNRISE 365<sup>®</sup> SUPPLY CHAIN

## A GLOBAL, OMNI-CHANNEL, TIER 1 SUPPLY CHAIN SOLUTION

These days, brands don't compete – their supply chains do. Microsoft Dynamics 365 is the only Tier 1 business solution that can give you a competitive edge, **without** all the cost and complexity. And with Sunrise 365 Supply Chain in your corner, you'll have an additional leg up on the competition every time.

Stock. Inventory. Merchandise. No matter what you call it, Sunrise 365 Supply Chain adds advanced capabilities to Dynamics 365, so you can quickly identify situations that are jamming up your supply chain and straighten them out fast.

### PLAN. EXECUTE. ANALYZE.

**Sunrise 365 Supply Chain** is an application that adds advanced demand and forecast netting, omni-channel inventory optimization, soft allocation, multidimensional matrices, and embedded supply chain business intelligence to the already robust functionality found in Dynamics 365.

#### PLAN CONFIDENTLY

Easily integrate the forecasting tool of your choice, and improve pre-season planning and the MRP process. When combined with bulk order management capabilities, you can feel confident that your pre-season demand is accurately represented.

#### EXECUTE FLAWLESSLY

You can avoid overstating demand with advanced forecast netting, and your planners will appreciate improved efficiency with a comprehensive planning workbench. Automated order release, with customizable prioritization, ensures your best customers have a great experience every time.

#### GLOBAL VISIBILITY

Don't let common supply chain challenges bring you down. With built-in BI dashboards, you get a bird's eye view of your supply chain, allowing for smarter purchase and production decisions. Spot potential problems far before they materialize with soft allocation and "what if" scenarios.
