# Solutions for HANA - delivered by experts!

SAP® has underlined its commitment to innovation by continuing to deliver new features to the previous SAP® solutions in form of enhancement packages and by prolonging mainstream maintenance for SAP® Business Suite 7 core applications until 2027. However, to harness the full innovation potential of SAP® and benefit from the new technologies that enable an intelligent ERP, a migration to S/4HANA® is inevitable.

SOLHANA - short for „Solutions for HANA"- is a single point of contact for organizations searching a service provider to plan, implement and operate SAP S/4HANA® in their organization.

## Assessment

Through a unique assessment, SOLHANA qualifies the status of your current SAP® landscape, understands your infrastructure, requirements and determines your unique conversion path to SAP S/4HANA®, providing the following:

- SAP S/4HANA® readiness check
- Overview of the new features in S/4HANA® related to your business processes
- Architecture design proposals
- Conversion path options
- High-level migration plan with milestones and approximate dates

## Migration

The comprehensive migration process of SOLHANA regards the following aspects from a technical and functional perspective:

- Migration from ERP to S/4HANA®
- Installation of the HANA database
- Performance of delta customizing
- Objects of the 'simplification list' are analyzed with pre-checks
- Implementation of new innovations

## Operation

Being on S/4HANA® does not mean it's time to rest: your SAP® systems still need to be constantly monitored and regularly updated to secure seamless operation of your business. Within the framework of our Service Level Agreements (SLA), SOLHANA offers you comprehensive services, tailored to your individual needs and wishes. You can fully concentrate on your core business while we take care of the following on a 24 x 7 x 365 basis:

- Monitoring & intervention
- Maintenance
- Support
