

# Simple to use legal practice management software available from any browser on any device.

## Legal Calendaring

Automatically and accurately schedule appointments, tasks, deadlines (and much more) for yourself, or your entire team.

## Time & Billing

Bill more time, more easily with APX (Abacus Payment Exchange). While you work, Amicus Cloud is in the background, keeping track.

## Case File Management

Amicus Cloud makes all your files and all the file content instantly accessible, better organized and much easier to use.

## Email Management

No matter who in your office sends or receives an email, the information automatically links to cases, and will be centrally accessible to everyone.

## Abacus Payment Exchange

Accept all major credit cards, e-checks, and ACH payments online through a secure portal with a 3% flat rate for credit cards.

## Client Portal

Easily share relevant information electronically with clients, so that you can work faster, and more collaboratively.

## Document Automation

Amicus Cloud not only organizes your practice - it helps you automate it, too. It can help make your firm more efficient and profitable.

## Mobile Access

Always have the information you need by accessing your matters from your mobile device.
