

NAPIER | RMS

REGULATORY MEDICAL SYSTEM

Specialized Medical Record System for Licensing

NAPIER REGULATORY MEDICAL SYSTEM (RMS)

Regulatory Medical System (RMS) is a secure electronic medical record (EMR) that provides an integrated platform for medical and fitness assessments. RMS is purpose built for industries driven by regulations. Using RMS results in faster and seamless medical assessment process with fewer errors.

RMS transforms paper based flows to leverage medical records and workflows based on “state-of-the-art” technologies. The rules derived from best practices enables process efficiencies and reduces operating costs.

RMS plays a vital role in improving occupational health, safety and welfare of employees, contractors and other personnel who require professional license in industries such as –

AVIATION

OIL AND GAS

MINING

MARITIME

TRANSPORT

BENEFITS OF RMS

Collaborative and Efficient

Adherence to regulatory standards and policies

Ease of application submission and remarkably informed applicants

Reducing errors through digitization of assessment process

Cutting-edge technology improvements

Lower cost than homegrown systems

PRODUCT HIGHLIGHTS

Electronic Medical Records (EMR)

Reports and Dashboards

Configurable Workflow

Health Assessments

Online Application Submission

Monitor Medical Licensing

Napier Assistant

An intuitive voice controlled chatbot that frees up medical staff to focus on doing their jobs better - caring for patients, and seeing to their needs on the spot. All they have to do is speak into the system to access and update patient and treatment information.

- Saves clinical staff's time on patient information access and updates
- Minimizes risks of clinical errors at point of health data capture (for example, by the patient's bed)
- Enhance patient experience with faster consultation and treatment, and reduced waiting times

NAPIER Healthcare

About Napier Healthcare

Headquartered in Singapore, Napier Healthcare Solutions is a specialist global technology vendor for healthcare providers. Since 1996, the company has been enabling medium to large private and public sector hospitals and hospital networks across the globe to capture and work with clinical information, streamline workflows, reduce medical errors, drive cost efficiencies and maximize profitability.

Napier Healthcare's expanded portfolio today covers the information needs of acute care providers and operators of long-term care facilities, such as hospices and nursing homes, as well as those of industries with specific healthcare IT needs, such as the aviation and maritime industries. To find out how Napier Healthcare can help your organization to derive top dollar returns on IT investments, make your way to www.napierhealthcare.com today.

Advance telehealth solution for capturing vitals and conduct remote monitoring

Modern solution that enables medical facilities to deliver superior patient care while lowering operational cost

Enterprise-ready mobile EMR solution for enhanced ambulatory care delivery
