# Cloud Security: Implementing a secure and reliable cloud solution in 30 days.

Our customers want a reliable cloud solution that meets or exceeds the security requirements for compliance, but the internal IT staff may not have the specific expertise required for a robust implementation. Unify Consulting experts will create a solution that matches your security needs in 30 days, and provide all the extras you need for DevOps, metrics/reporting, and governance. Let Unify Consulting get you up and running in 30 days.

## CHALLENGES

Secure and Reliable cloud solutions are foundational to running a business in today's environment. But getting that solution in place can be tricky for those with time constraints.

## IDEAL SOLUTION

At Unify Consulting we offer Rapid Rollout of Azure cloud solutions that are both secure and future focused for reliability and scalability. We will get you up and running in 30 days, with a secure and scalable solution that supports your DevOps and CI/CD needs and offers data insights through metrics and Power BI.

## DESIRED OUTCOMES

Our customers are up and running in 30 days on Azure with a secure implementation that is reusable and scalable.

On day 31, you will be focused on business decisions.

## Azure Rapid Start

Unify Consulting is a magnet firm for superstar consultants, respectfully disrupting the consulting industries of Seattle, the Bay Area, and Chicago. We help clients modernize their digital footprint and optimize the full potential of their people.

# 1

### Architecture

We start with a quick evaluation of need. We identify Your Azure Rapid start architecture and integrations, build out the backlog, and plan for governance.

# 2

### Azure Automation as Code

We build out the implementation to bring you up to the cloud in 30 days. Our expertise with automation makes our solution fast and reliable.

# 3

### Business Intelligence

Unify Consulting experts can customize your implementation to add Azure tools for advanced metrics, logging and BI. We can advise on Policy and Governance.

# Unify Consulting RapidStart for Microsoft Azure solution in 30 days

With the partnership between Unify Consulting and Microsoft, we are able to expand and customize your engagement with Microsoft Consulting services. We deploy your Azure Cloud solution in 30 days so that on day 31 you are deploying code to production and reviewing metrics through Azure Sentinel to make better business decisions.

## Advanced Security Monitoring

Unify Consulting's Data Experts together with powerful AI developed by Microsoft will customize Azure Sentinel to identify potential security gaps before they have impact.

## Power Business Intelligence

Unify Consulting can help you to better understand your data by setting up Power BI. With Power BI, reports can be customized from multiple sources to offer actionable business insights.

## Policy and Governance

Unify Consulting specializes in solutions that fit our client's unique needs. We have proven experience creating right-sized policies to meet the exact compliance needs of our partners and clients.
