Rapid Start Provides a Secure Azure solution in 30 days from start to launch. Proven.

Why Unify:

Unify Consulting is a magnet firm for superstar consultants, respectfully disrupting the consulting industries of Seattle, the Bay Area, and Chicago. We help clients modernize their digital footprint and optimize the full potential of their people.

Rapid Azure Deployment in 30 Days

Our consultants provide a fast deployment in 30 days that is secure and future focused. It will scale and provide reliable DevOps and CI/CD. Metrics, Log Analytics and Power BI guide decision making, with Policy and Governance to ensure operations meet compliance standards.

WHAT WE OFFER

Unify Consulting provides a rapid start to Azure using our secure quick start and setup. This provides a rapid rollout of Azure services now, while keeping the future in focus with an implementation that is reusable and scalable. We leverage Azure to give you security from the start using DevSecOps practices and tools.

Rapid Rollout quickly deploys infrastructure using hybrid cloud computing, automated as code, with centralized configuration and resource management as code.

Managing Azure Automation as Code is the final piece to managing the entire lifecycle of your Azure Cloud resources.

Unify Consulting experts customize an Azure DevOps solutions using Azure Boards, Azure Pipelines, Azure Repos Azure Test Plans and Azure Artifacts. For an InfrastructureAsCode approach, we have expertise leveraging ARM, Terraform, Chef and Ansible. We finish it off with Azure Sentinel for advanced metrics and can advise on Policy and Governance as well. Let our Unify Consulting experts design a secure and custom solution for you, then roll it out in 30 days.

Why Microsoft Azure?

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
