Reinvent computer-assisted CDI with ChartWise NotePath smart chart review, powered by Azure

Microsoft Azure

ChartWise Medical Systems, Inc. is the premier three-time KLAS award winning provider of Clinical Documentation solutions for hospitals world-wide. Award-winning workflow and prioritization software, consulting, education services, and support provide outstanding return on investment while improving quality.

WHAT WE OFFER

NotePath Smart Chart Review automatically **finds, indexes, and presents clinical evidence** and advice regarding initial working diagnosis, query suggestions, HCCs, patient safety indicators, co-morbidities, and other information, and provides alerts to improve both the efficiency and accuracy of patient clinical documentation.

ChartWise is built on the **Microsoft Azure platform** to ensure reliability, performance, and scalability, while maintaining outstanding uptime availability. Using Azure SQL and Power BI provides the data architecture and analytics needed by clients for insight to optimize their programs.

NotePath integrates with the core ChartWise CDI software and allows clinical documentation specialists to quickly and comprehensively **review and identify critical clinical findings**, medications, and lab results. All discovered through real-time, with advanced Natural Language Processing (NLP) of all clinical documents in the EHR.

NotePath automates many of the clinical documentation improvement processes, improving efficiencies, reducing errors, improving quality, and reducing claim denials. ChartWise CDI with NotePath provides a **fast ROI** and real impact to the bottom line.

WHAT THEY ARE SAYING

"This provides a powerful tool to break through the Note Bloat that challenges all users of EMRs. The vast amount of information in the patient's chart is organized and presented in a logical and concise fashion inviting exploration and review of all evidence, problem by problem."

- Jonathan Elion, MD, FACC, CCDS, ChartWise Founder and Chief innovation Officer.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.

WHY AZURE

Be future-ready

Continuous innovation from Microsoft supports your development today and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise-grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data science tools.

Build on your terms

You have choices. With our commitment to open source and support for all languages and frameworks, you can build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support for Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single identity platform trusted by 90 percent of enterprises globally.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With its $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.
