NEXTBUY PROCUREMENT PLATFORM

NextBuy is an intuitive, cloud-based software platform that provides procurement solutions to its clients. The system is module based. Additionally, it's flexible IT solution that covers various procurement processes. It connects buyers and suppliers in one integrated platform.

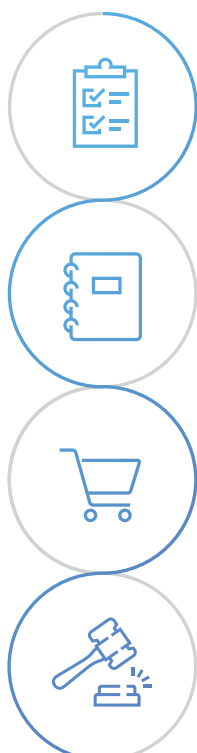

NextBuy is available as SaaS, which allows quick implementation process and access to the system from every device at any time. The flexible architecture of the platform makes it possible to easily adjust the system functionality to meet specific customer requirements and align with customers' business segments.

What we do?

One solution to tackle all challenges during the procurement process across the organization.

Customize your system and choose the modules you really need.

Main modules and features:

PURCHASE REQUEST

Create purchase requests from templates and run automatic approval process.

PRODUCT CATALOGUE

Speed up ordering process. Group your suppliers' products into catalogues and product categories and have easy access to them.

RFX

Access transparent supplier sourcing process.

E-AUCTION

Negotiate best prices from your suppliers by conducting auctions in the system.

PURCHASE ORDER

Send purchase orders to suppliers automatically from the system, Confirm deliveries and invoices.

CONTRACT MANAGEMENT

Create and manage contracts in one place, monitor contract details and the status of use.

SUPPLIER DATABASE

Have access to over 67 000 suppliers or import your own supplier database. Manage and evaluate supplier performance.

ANALYTICS AND REPORTS

Have full overview over your spending and generate reports with over 20 indicators.

Why NextBuy?

AUTOMATE PROCESSES

All information stored in one system that streamline information flow, process control and communication.

MANAGE PROCUREMENT

Manage end-to-end procurement process in your company.

OPTIMIZE COSTS

Generate savings thanks to e-catalogues, e-auctions and getting more offers from new suppliers.

SAVE TIME

Reduce time consuming activities such as rewriting a text or manual analytics.

Our customers

NextBuy simplifies procurement processes in large, medium and small companies from various industries all around the world.

Meet our clients:

” We have decided to implement NextBuy in our organization, because we wanted to improve the purchasing process and comply it with all internal procedures. The solution helps increase the comfort of employees involved in the procurement processes and the effectiveness of their work.

Rafał Mroczkowski
Nest Bank S.A.

” We have been looking for a software which would enable the centralization of purchasing processes, streamline the interdepartmental communication and, above all, optimize cost of orders. The implementation of NextBuy platform has become a base for modern purchasing management.
