

Vourity POS 3

Self-service Payment and Point of Service Terminal

Examples of features available

Vourity POS 3 is an "All-in-One" Self-service Payment and Point of Service Terminal for any kind of unattended sales, payments, access control, resource booking and redemption of digital vouchers. The terminal can be used to open doors and turnstiles, handle payments in vending machines, booking of laundry, meeting rooms, and resources, sales in self-service retail shops with "self check out", electrical vehicle charging and building access control. All features are dynamically enabled and centrally managed from Vourity Cloud.
