Expert SharePoint Online Intranet Consultancy
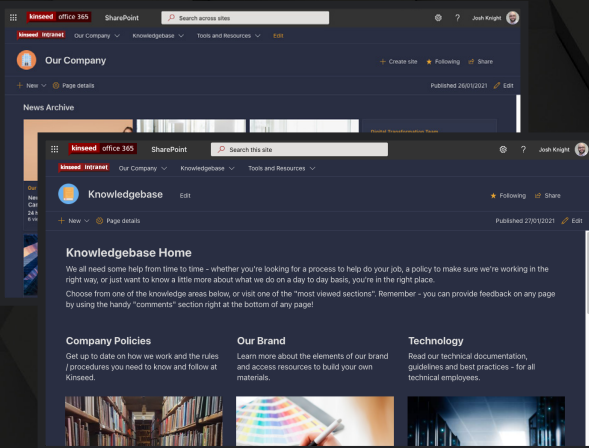

Make the most of Microsoft 365

Kinseed helps businesses of all shapes and sizes make the most of Microsoft 365.

With our experience working with organisations in heavily regulated markets (including Healthcare, Finance, Government, and more), we understand the challenges organisations face when trying to embrace the cloud while staying compliant with regulations and policies.

Our tailored approach helps your organisation get the most value out of SharePoint, Office, Teams and more.
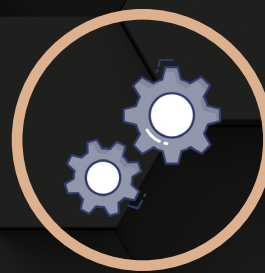

Tailored solutions for market challenges

Automations and Integrations
Saving your team time and headaches for regular, repeatable or critical transactional tasks

Governance-Ready Information Architecture
Designed with the precise needs of your industry or vertical from the ground up

Non-monolithic design
Modern intranet and knowledge environment which "plays well" with the rest of MS365

... All tailored to fit
All our consultancy projects are tailored and tweaked to fit precisely your organisation - no "cookie cutters" here!
