

## Are you prepared for a Secure Digital Workplace of Tomorrow?

### Cloud4C Desktop as a Service (DaaS) Solution

We would be happy to partner with you in choosing Windows Virtual Desktop solution to facilitate secure, hassle free work from home for your employees.

Work from anywhere, anytime, on any device  
**FASTER. BETTER. SMARTER**

### Proof of Concept Scope

#### Phase 1

#### Assessment, Discovery, Blueprint & Design Phase

- Understand the existing landscape for building DaaS
- Bases the assessment, a high-level blueprint detailing the process flow and architecture for PoC
- Overview session to discuss proposed DaaS solution on Azure, focusing on business needs and strategy to implement
- Finalise the blueprint of PoC & Infrastructure build-up

#### Deliverables

Blueprint for DaaS setup along with Azure landing zone readiness plan

#### Phase 2

#### Proof of Concept (PoC) Delivery

- Preparing the customer Azure subscription
- Deploying and Configuring the WVD services
- Walk-through of the process for accessing the environment
- Transfer of know-how to the customer and measure success criteria of PoC

#### Deliverables

PoC of DaaS solution as per the deliverables and outcome agreed with customer

### Workshop and PoC Highlights

- Understand the features and benefits of Window Virtual Desktop solution
- Assess your current working environment and witness how WVD is the fastest and most cost-effective way of deploying virtual desktop and getting the team working from home
- Create a customized deployment roadmap based on your goals

### Why Cloud4C ?
