## Being a better people manager is super easy with Teamblee

We know that your managers are super busy and we are here to help them better manage their team and save time while doing so

✅ Unread email reminders, and email read rate warnings from direct reports

✅ 1-on-1 frequency reminders, and total time spent reports

✅ Smart suggestions to increase team engagement and morale

✅ A central place to see updates about your direct reports

Built to work with Office 365

Teamblee provides meaningful experiences by getting behavioral data from Office 365, and helps managers access deep insights generated from the daily communications with their direct reports and peers.

✅ Right within Microsoft Outlook and Teams

✅ Use your Office365 credentials - no need for a separate username and password

✅ Easy to use for end users and easy to configure for IT

❓ Does Teamblee only work with Office 365?

Teamblee is built on top of Microsoft Graph, which is the gateway to data and intelligence in Office 365. For now, Teamblee only works with Office 365, but we are also considering other alternatives such as Google G-Suite.

❓ Is Teamblee really free?

Yes, Teamblee is totally free and always will be accessible with all of its features for companies that have under 50 employees. However, if you have more than 50 employees, you have to move to our paid tier which starts from 3$ per month.

Better team management and increased engagement

Teamblee makes sure that your managers are always on track, and that your employees are always engaged.
