

# VACCINE ADMINISTRATION SOLUTION ACCELERATOR

**Enables facilities to support safe, data-driven approach to employee's health**

Neudesic's Vaccine Management solution is a mobile-ready application that is built on Microsoft Dynamics 365 Platform to administer therapeutics and follow-up with patients. This turnkey solution is designed to provide real-time access to vaccine availability, administration, scheduling and compliance data to support decision-making and distribution efforts using advanced analytics and machine learning. We ensure that you have a flexible solution to enable your organization to scale, while meeting government compliance and reporting.

**We're ready to help you improve for breakthrough business performance**

## The Benefits:

- Meets compliance and regulation requirements
- Easy to scale
- Powerful Insights
- Deploy to the cloud without additional infrastructure
- Accelerated development
- Secure and efficient

## How it Works:

This easy-to-use digital solution integrates with EHR via Microsoft Dynamics 365 Customer Voice that improves facilities communication to administer vaccines and other therapeutics.

- Schedule and manage vaccine appointments
- Determine if and when someone is eligible to receive a vaccine

### Patients

- Self-health assessment
